Tour des Monts d'Aubrac

LOZÈRE - AVEYRON - CANTAL

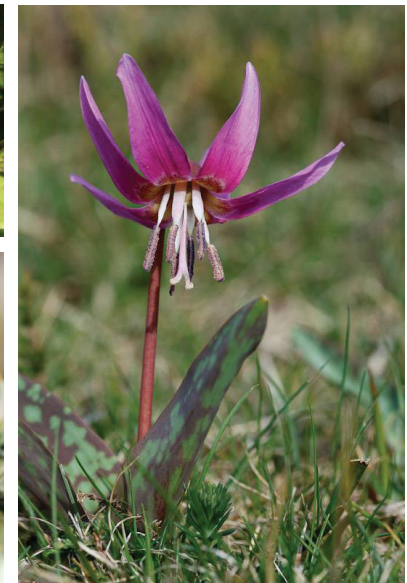

come and walk
close to the stars...

www.tourdesmontsdaubrac.org

You will get to cross a very old county impacted by volcanic activity, visited by Roman legions and crossed by the pilgrims of Santiago de Compostela. You will walk on path (drailles) shaped by farmers for their flocks.

Dear Hiker

You have decided to come and discover the Aubrac and we know that you'll be seduced: situated on a high plateau in the south of the Massif Central, an amazing light, the "most beautiful mornings in the world" (Nicolas Hulot) and the richest flora in Europe.

Our association consists of the plateau inhabitants who want to share their love of this part of the country. We look forward to welcoming you along this path, soothing, exotic and ideal for family excursions.
